

Marlborough NPSFM submission: proposed values

Marlborough region | December 2023

Summary of HortNZ's submission

What is Marlborough District Council's proposed values and environmental outcomes consultation about?

Marlborough District Council is consulting on the proposed visions and environmental outcomes for each of the FMU in the region. These will inform the level of ambition in the plan and other aspects such as target attribute states and limit needed to achieve visions and environmental outcomes.

Key changes /provisions

Horticulture New Zealand would like to seek the following considerations:

- Domestic food production as a region wide value.
- Retaining flexibility in freshwater plans to enable other suitable production activities, such as horticulture in the future.
- Supports the recognition of water storage as an approach to creating freshwater reliability and security in the region.
